PROFESSIONAL SUMMARY

Software Engineering student graduating in 2026 with hands-on experience building and deploying full-stack business applications using Java Spring Boot, React, TypeScript, MySQL and Docker. Strong focus on backend development, REST API design, relational database design, authentication, MVC architecture and Linux deployments. Seeking an entry-level Software Engineer, Backend Developer or Full-Stack Developer role.

TECHNICAL SKILLS

Backend: Java, Spring Boot, REST APIs, JWT Authentication, RBAC, MVC Architecture

Frontend: React, TypeScript, JavaScript, HTML, CSS, responsive web design

Databases: MySQL, SQL Server, SQLite, MariaDB, SQL, relational database design

DevOps & Tools: Docker, Linux, Nginx, Git, GitHub, Maven, npm, Vercel

Testing: JUnit, API testing, debugging

Languages: Spanish (Native), English (B2)

WORK EXPERIENCE

IT Systems Developer | Herrera Arias Medical Office & Concrebox_PTY | Dec 2023 - May 2025

- Developed database-driven internal systems for appointment scheduling, inventory control and administrative workflow automation.
- Structured and maintained relational databases supporting 1,000+ business records, improving data organization and reliability.

Freelance Full-Stack Software Developer | Self-Employed | Oct 2024 - Present

- Designed, developed and deployed full-stack business applications using Java Spring Boot, React, MySQL, Docker and Linux VPS environments.
- Implemented relational databases, REST APIs, RBAC authentication, inventory workflows, sales modules and reporting features.

PROJECTS

Inventory SaaS System

Java Spring Boot | React | TypeScript | Vite | MySQL | Docker | Git

- Developed a multi-tenant inventory SaaS designed for multiple companies, including product management, stock control, admin workflows and relational database design.

Medical Appointment SaaS for Medical Offices

Java Spring Boot | React | TypeScript | Vite | MySQL | Docker | Git

- Built a reusable appointment SaaS for medical offices, including scheduling workflows, authentication, admin features and database-driven patient appointment management.

API Integration Platform

Spring Boot | REST APIs | JSON | Authentication | Error Handling

- Created a backend platform for consuming third-party APIs, handling authentication, error responses, JSON parsing and normalized API outputs.

Vibrant Supplements Store

Java 17 | Maven | JSF 2.3 | PrimeFaces 12 | MariaDB | Linux VPS

- Built and deployed a gym supplements sales website with product catalog, shopping cart functionality, admin workflows and production Linux VPS deployment.

Concrebox Landing Page

Next.js | React | TypeScript | Vercel

- Developed a responsive landing page for a modular housing company focused on lead generation, service presentation and conversion-focused sections.

Monarca Swimwear Landing Page

HTML | CSS | JavaScript | Vercel

- Developed a responsive landing page with product showcase, visual branding, mobile-friendly layout and conversion-focused sections.

EDUCATION

Bachelor's Degree in Software Engineering

Universidad Latina de Costa Rica | Expected Graduation: December 2026

High School Diploma

Westland High School | Heredia, Costa Rica | Dec 2022
