PROFESSIONAL SUMMARY

Software Engineering student graduating in 2026 with hands-on experience developing and deploying full-stack applications using Java Spring Boot, React, MySQL and Docker. Strong focus on backend development, REST API design, database design, authentication, and Linux deployments. Seeking an entry-level Software Engineer, Backend Developer or Full-Stack Developer role.

TECHNICAL SKILLS

Backend: Java, Spring Boot, REST APIs, JWT Authentication, MVC Architecture

Frontend: React, JavaScript, TypeScript, HTML, CSS

Databases: MySQL, SQL Server, SQLite, relational database design

DevOps & Tools: Docker, Linux, Nginx, Git, GitHub, Maven, npm, Vercel

Testing: JUnit

Languages: Spanish (Native), English (B2)

WORK EXPERIENCE

IT Systems Developer | Herrera Arias Medical Office & Concrebox_PTY | Dec 2023 - May 2025

- Developed database-driven internal systems for appointment scheduling, inventory control and administrative workflows.
- Structured and maintained databases supporting over 1,000 business records, improving data organization and reliability.

Freelance Full-Stack Software Developer | Self-Employed | Oct 2024 - Present

- Developed and deployed full-stack business applications using Java Spring Boot, React, MySQL, Docker and Linux VPS.
- Designed relational databases, REST APIs, RBAC authentication, inventory, sales and reporting modules.

PROJECTS

Vibrant Commerce Platform

Java 17 | Maven | JSF 2.3 | PrimeFaces 12 | MariaDB | Linux VPS

- Built a commerce and inventory platform with catalog, cart, inventory and admin workflows.
- Packaged the application as a WAR and deployed it on a Linux VPS.

Medical Appointment System

React | TypeScript | Spring Boot | MySQL | REST APIs

- Developed a medical appointment system with scheduling, authentication and admin features.
- Designed REST APIs and relational database models using Spring Boot and MySQL.

API Integration Platform

Spring Boot | REST APIs | JSON | Authentication

- Built a backend platform for consuming external APIs, handling authentication, errors and response normalization.

Concrebox Landing Page

Next.js | React | TypeScript | Vercel

- Developed a responsive landing page for a modular housing company.

Monarca Swimwear Landing Page

HTML | CSS | JavaScript | Vercel

- Developed a responsive landing page with product showcase and brand storytelling.

EDUCATION

Bachelor's Degree in Software Engineering

Universidad Latina de Costa Rica | Expected Graduation: December 2026

High School Diploma

Westland High School | Heredia, Costa Rica | Dec 2022
